Mr. Maury Warshauer
Vice President
Fuelmiser
460 Second Avenue
Suite 11A
New York, N.Y. 10016

Dear Mr. Warshauer:

We originally began testing FUELMISER in the spring of 1999 on our Ford Crown Victoria police vehicles. At the end of that year we discovered that the FUELMISER showed an average fuel savings of over 10%.

Since that time, we have continued to monitor the results on the original vehicles to see if we continued to achieve significant fuel savings. After two years of continuous monitoring we have found an average savings of 14.8%.

Based on our real time field-testing, for an extended period of time, we have concluded that FUELMISER can give any fleet of vehicles, significant reduction in their fuel costs.

Ed Ritter
