The Tom Hampton Agency is an automotive aftermarket independent agency. We specialize in setting up both New Automobile and Used Automobile Dealers in programs that are designed to add value to their vehicles. We represent at this time four different companies in a variety of products that range anywhere from "Roadside Assistance" to full blown "Vehicle Service Contracts".

We work with both the sales and service divisions of Dealerships to assure quality control of the product and on-going training to better serve their clientele.

I came across the FUELMiser product at the behest of a colleague. I made contact with Jim Bland at BLP in late December of 2007 and became an independent Representative for them in January 2008. Having grown up in the automotive industry (3rd generation) I have seen a lot of "wonder products" come and go over the decades. I liked the possibilities of the great value FUELMiser could offer both my Dealers and their clients so I ordered a couple of units to test. As I travel across Texas (60,000 miles or more per year) it was prudent that I use the product and could be in a position to give a first hand accounting for it.

Before FUELMiser my average mileage was 17.79mpg in my 2001 P.T. Cruiser (2.4L 4 cyl automatic) after the FUELMiser was installed I now average 21.10mpg a consistent 4mpg increase. I drive a combined city/highway route most of my journeys. In the city I experience at least 1.5-2hrs per day of "idle-time" in my vehicle due to traffic and bookkeeping after a presentation or service call.

I know beyond a shadow of doubt that the FUELMiser works and at this time I am in negotiations with several Automotive Dealers / Municipalities / Chamber of Commerce / Independent Companies (with fleets of 4 units and above) not to mention HR departments of various local companies; as a benefit to the employee to ease the "pain-at-the-pump" we are all currently experiencing.

Should you have any further questions please do not hesitate to call me on my mobile; the number is 832-723-3976.

Create-A-Great-Day,

Tom Hampton
